CLASS SPECIFICATION

STARTING PAY: \$43,146

Heavy Equipment Mechanic

Job Summary: Under general supervision, provides skilled troubleshooting and mechanical servicing of heavy equipment used within the Landfill.

Tasks:

Performs scheduled preventive maintenance services, including lubrication, oil changes, and minor repairs and adjustments on all landfill vehicles.

Checks fluid levels, including engine oil, brake fluid, and transmission fluid to determine if additional fluids are needed; inspects a variety of vehicles and equipment following an established safety/preventive maintenance checklist to identify repairs/adjustments necessary for safe operation; fills equipment/vehicles with appropriate type of fuel (diesel/gasoline).

Determines causes of mechanical operating problems, traces and locates defects and makes repairs to heavy equipment and vehicles.

Repairs, overhauls and rebuilds major assemblies.

Uses knowledge of equipment, to correctly diagnose and repair equipment.

Cleans immediate work area and general shop area.

Available to work weekends as needed as long as the job requires.

May work in the shop or out in the field.

Fuels machines as needed.

Performs other duties as assigned.

Knowledge, Skills, Abilities and Other Characteristics:

- Knowledge of preventive maintenance procedures, including lubrication, oil change, and basic electric/hydraulic system checking.
- Knowledge of vehicle/equipment safety check practices and procedures.
- Skill in performing general preventive maintenance services, including tire repair, wheel balancing, lubrication, oil change, and electric/electronic and hydraulic system checks on a variety of vehicles and equipment.
- Skill in performing safety/preventive maintenance inspections on a variety of vehicles/equipment.
- Skill in understanding manufacturer's service specifications.
- Knowledge of current OSHA rules and regulations.
- Knowledge of diagnostic and repair methods, techniques, materials & tools for heavy equipment.
- Knowledge of equipment components and assemblies, installation, repair structure, functions and other essential elements of heavy equipment operation.
- Skill in safely operating electrical/power/manual tools and equipment.

- Ability to lift, stand, bend, stoop and carry objects, including but not limited to mechanical tools, materials and equipment, weighing 50 – 90 pounds and to otherwise physically perform and complete heavy equipment mechanic tasks as directed by Fleet Manager.

Qualifications: Graduation from high school or GED equivalent and experience equivalent to two years full time assisting a journey level heavy equipment mechanic. Any equivalent combination of experience and education that will allow the applicant to satisfactorily perform the duties of the job may be considered when filling the position. Must possess a valid Arizona driver's license, reliable transportation and a clean driving record.

MUST PASS A PRE-EMPLOYMENT DRUG TEST

Preference will be given to a qualified Community member, then a qualified Native American and then other qualified candidates.
